EVIDENCE WILL BE PRESENTED TO THE SENATE

Watson Says Will Not
Let Committee
Entomb It

(By The Associated Press)
WASHINGTON, Nov. 2.—Notice was given in the senate today by Senator Watson, Democrat, Georgia, that he intended to present to the senate itself evidence of his charges that American soldiers had been hanged overseas without court martial.

The Georgia senator declared that he would not be bundled up in any committee room and have his evidence "entombed with senators in a report nobody would read," but would make his fight in the open senate.

The senator said later that he would reserve a decision whether he would appear at all before the special senate committee appointed to investigate his charges.

Sensor Watson's statements today were made in another hour's spirited clash over the investigation when Senator Brandegee, Republican, Connecticut, chairman of the special committee, presented a formal resolution authorizing the committee to take testimony under oath and subpoena witnesses and papers. The resolution drew sharp comment from Senator Watson and also involved Senator Reed, Democrat, Missouri, in a spirited discussion with several Republicans regarding the proposed investigation.

Senator Watson reiterated his charges and declared they all had been made in 1918 by former Senator Chamberlain of Oregon now a shipping board member. The Georgia senator also declared that today he had received letters and telegrams from former service men and soldiers in Philadelphia and New York supporting his charges. According to his information, he said other galleys, other than that pictured in the photograph he presented yesterday in the senate had been erected and used in France.

ARMY IS BELOW PEACE STRENGTH

WASHINGTON, Nov. 2.—Latest official statistics on army recruiting prepared by the war department for possible use of the pending conference in connection with discussion of land armaments showed that new enlistments during recent weeks have not been sufficient to offset normal discharges and other casualties.

As a result it was said, the regular army today is below the minimum peace strength of 150,000 set by congress—the official total was 138,000 on October 31.

During the month of October 2,834 men left the service while only 2,600 recruits were signed on. Army officers were of the opinion that the situation was the result of accepting applicants only for the units stationed nearest their homes. This policy, they said, was made necessary by the lack of funds to pay transportation.

TO PRAY FOR SUCCESS OF CONFERENCE

LONDON, Nov. 2.—The National Free Church council of England in co-operation with the federal council of the Churches of Christ in America will offer prayers in all the 16,000 churches of the country next Sunday for the success of the Washington conference.

CRISIS IN IRISH AFFAIRS KEEPS GEORGE AT HOME

British Premier Cancels
Passage to United
States

LONDON, Nov. 2.—(By A. P.)—Lloyd George has definitely cancelled his passage on the Steamer Aquitania, on which he was to have proceeded to the United States, Nov. 5 to attend the Washington conference.

Owing to the grave turn in Irish affairs, it was said it is not even possible to fix a provisional date for the premier's sailing, but he still intends to go to Washington at the earliest moment possible.

The cancellation by the premier of his passage is considered a favorable sign of the progress of the Irish negotiations. The interpretation placed on it is that Lloyd George hopes that a few days delay in his departure will enable him to see a settlement reached or at least the basis of an agreement arrived at which can be worked out during his absence from the country. In this connection importance is attached to the fact that Sir James Craig, the Ulster premier, is coming to London Saturday.

COAL STOCKS ARE FAIRLY LARGE

WASHINGTON, Nov. 2.—Coal stocks throughout the country are fairly large according to a study made for the National Coal association by its official organ, the Coal Review.

Without commenting upon the strike possibilities in the coal field, the journal estimated that retail coal yards have a three week's supply on hand, the domestic consumers probably have less in their own bins while public utilities, gas and electric plants have reserves sufficient for between two and four months and railroads and not including what is constantly on supply cars.

JAP DELEGATES ARE WELCOMED TO WASHINGTON

Greeted by Hughes
and Other Govern-
ment Officials

(By The Associated Press)
WASHINGTON, Nov. 2.—The principal Japanese delegation to the disarmament conference arrived here late today from the Pacific Coast by special train. The party included Admiral T. Kato, minister of marine, Prince Tokugawa, president of the house of peers and a party of advisers and experts. The delegation was met by Secretary Hughes, and Third Assistant Secretary Bligs, representing the state department; Secretary Denby and Assistant Secretary Roosevelt of the navy department and a number of other officials.

The Japanese delegation to the conference is now complete, the first of any country to be completed by arrival here. It was the first time Secretary Hughes had gone to the union station to meet any of the incoming delegates and cordial greetings were exchanged by him and other members of the American reception party with the Japanese delegates before the representatives of the two nations entered the president's room at the eastern end of the station.

A brief halt was made there for photographs to be taken and then the military band sounded "Attention" and the cavalry escort troops flashed their sabres in position of "salute." The national anthems of the two countries were played and then under military escort the delegation proceeded in automobiles to the residences reserved for them here.

DEATHS FROM AUTO ACCIDENTS SHOW INCREASE IN 1920

Youngstown, Ohio, Has the
Greatest Rate of Any
City

(By The Associated Press)
WASHINGTON, Nov. 2.—Deaths from accidents caused by automobiles and other motor vehicles excluding motorcycles increased decidedly in 1920 as compared with 1919, the census bureau announced today. The deaths due to motor vehicles last year averaged within the death registration area of the United States 10.4 per cent per 100,000 population, as compared with 9.4 per cent in 1919.

Approximately 9,000 persons were killed last year by motor vehicles in the death registration area which comprises 82 per cent of the population of the United States. The bureau's figures, however, show that the automobile is not nearly so dangerous as it was in its early days. In 1915, there were two deaths to every 1,000 motor vehicles while last year the ratio was 1.2 per cent.

The death rate from motor vehicle accidents last year was highest in California, amounting to 21.1 per 100,000 population. Connecticut with a rate of 15.6 ranked second and New York and Washington with rates of 13.50 tied for third place.

STRIKE IS DELAYED AWAITING OPERATORS ACTION ON CHECKOFF

Indiana Miners Are Going Out—However
Men Will Not Be Called Out in Other Fields
Until the Collection of Checkoff Actual-
ly Ceases—Farrington Sends Message

(By The Associated Press)
INDIANAPOLIS, Ind., Nov. 2.—Delay in the spread of the "protest" strike of soft coal miners, started today by walkouts of 25,000 union workers closing more than 200 mines in Indiana was anticipated tonight by officials of the United Mine Workers of America who said developments awaited the discontinuance by operators of the union "checkoff" of dues from miners' wages as directed by a federal court injunction.

Indications were that union officials would not call out the men, scattered thruout the soft coal fields of the country, until collection of the "checkoff" was actually ceased by the operators. First official reports of action by operators, elsewhere than in Indiana, reached union headquarters here tonight coming from the Pennsylvania bituminous district, centering around Pittsburgh.

The message from Robert R. Gibbons, president of the district, said the "checkoff" would be stopped with the next pay day, the date of which was not given, but which indicated a probable delay in any strike order affecting 40,000 workers in that field.

Indiana workers, however, did not withhold their strike to await a formal notice from the operators, whose notice stopping the "checkoff" has been drafted by counsel for their association. Some of the important mines in the state worked today and reports to both headquarters of operators and the union said that only sixteen mines were in operation. The only court action today was the approval by Judge Anderson of a bond filed by the Boardman Coal corporation, complainants in the injunction suit. The court action, followed by service of the writ on union men and operators, made the injunction effective.

Plans for hastening the appeal of the injunction decision to the circuit court of appeals at Chicago also were made by counsel for the union and the operators, but preparation of the numerous documents in the case delayed the presentation of their appeal to Judge Anderson.

Counsel, however, regarded the appeal petition as a perfunctory request, which would be approved by Judge Anderson as soon as presented, probably tomorrow.

Miners Out at Murphysboro

West Frankfort, Ill., Nov. 2.—The Bush mine, near Murphysboro, which is located in the Ninth Sub-district of the United Mine Workers of America, and which is under the jurisdiction of President Lon Fox, did not work today, according to reports reaching President Fox tonight. The miners stated they did not work as they read in southern Illinois papers that Illinois miners were to strike following issuance of a federal injunction regarding a "checkoff" of dues from miners' wages.

President Fox will visit Bush tomorrow morning and explain why the miners should remain at work, according to reports here tonight.

A message received today from Frank Farrington, state president of the miners, urged the men to remain at work.

Will Take No Action

Chicago, Nov. 2.—The Illinois Coal Operators' association will take no action regarding the federal injunction to abandon the "checkoff" system until next Wednesday, when a meeting is to be held here.

This announcement was made this afternoon by Dr. H. C. Honnold, secretary of the association, who is sending copies of the injunction accompanied by a memorandum to all members. This memorandum points out that the association feels that there should be a thorough investigation by members and their injunction conflicts with the one issued Oct. 5, 1921 by Judge Charles H. Miller of the circuit court of Franklin county, Illinois.

Dr. Honnold pointed out that an injunction proceeding was one in which each individual member of the association was responsible as an individual and for this reason an opportunity for additional protest and action was deemed necessary.

PAT HARRISON SEES SUCCESS FOR DEMOCRATS

Thinks Principles of
Wilson Will be
Vindicated

(By The Associated Press)
OWENSBORO, Ky., Nov. 2.—In a public address here tonight Senator Pat Harrison of Mississippi, declared that the Democrats see victory in 1924 in the air and the principles for which Woodrow Wilson fought vindicated.

Mr. Harrison spoke here at the request of Urey Woodson, publisher and former member and secretary of the Democratic national committee.

"Yesterday I attended a meeting of the Democratic national committee in St. Louis," said Senator Harrison. "The meeting was one of the most harmonious ever experienced by the Democrats. Everyone in attendance worked with one object in view—harmony—and they got it."

"The selection of Cordell Hull as national chairman met with the approval of every Democrat in attendance at this meeting. The Democrats are militant. They will present a united front from now until the national election in 1924. They see victory in the air and the nation will yet see the principles for which Woodrow Wilson fought vindicated."

A strike of packing house employees is the next rumored disturbance on the calendar. That is one thing which causes no local worry. The supply of livestock hereabouts is ample and likewise the packing house facilities.

A list of the stockyards that have come under direction of the U. S. because of the packers' control bill runs to 66. It remains to be seen how much the stock raisers or shippers will benefit from the new system of control. The chances are that the packers know just a little more about the complicated machinery of operating stock yards than any other group.

President Farrington of the Illinois miners thinks there is a way to peace in the present "check off" disturbance. In a telegram to district mine organization he has insisted that the men must continue at work. The statement that Farrington has made in some measure supports the belief of many people that he is not nearly as much of a radical as some of his interviews indicate. They say that his antipathy for John Lewis, international president, sometimes leads him to say more than he means.

There is a lot of excitement near Freeport over the alleged discovery of gold ore on a farm in that area. A mining company has been organized and the min-

eral rights on a great tract secured. Bankers say that one basic trouble with business is that there is too much gold in the U. S. Possibly the Freeport farmers shouldn't be so excited about their find.

The rest room project is designed as an all-county enterprise. Certainly if it will tend to allenate instead of interest the people of the county outside of Jacksonville the committee want to know that fact. They have sought to build up a co-operative enterprise with the thought that they were serving the interests of all the county. Far from their idea is that of providing something for Jacksonville at the cost of non-resident taxpayers.

The American Legion gathering at Kansas City was one of the most notable ever held in that city. The annual meetings will increase in interest and importance with each passing year. However, the average citizen cannot consider all of the subjects brought to the attention of the legionnaires without thinking that the danger for legion influence lies in the possibility of too many lines of activity.

STORY OF GREECE IS TOLD IN PICTURES

Private Collection of Dr. Carl E. Black Now on View at David Strawn Art Home—The Public Is Invited to Inspect the Pictures.

If you visit the David Strawn Art Home any afternoon or evening this week you can get an accurate view of both ancient and modern Greece. This will be possible by studying the very interesting exhibit of pictures, the property of Dr. Carl E. Black, acquired when as Major Black of the Red Cross commission he spent a series of months in that most interesting portion of the world.

Many of the pictures were taken with Dr. Black's own camera. Others are duplicates of photographs owned by the American Red Cross, and still others were purchased in Athens and other cities of Greece. The most of the pictures are intended for use in Dr. Black's complete diary of his overseas service and will eventually be placed in their proper relationship with the reading matter of the diary and bound in a number of volumes.

An inspection of the collection furnishes immediate proof both of its educational and monetary value. At least 1,000 pictures have been mounted and are arranged in groups in three rooms of the Art Home. The work of mounting these pictures and preparing the explanatory legends beneath was done by Mrs. Wallace Hembrough. Dr. Black's daughter, in the months immediately preceding his return from the foreign mission.

Pictures Every Day
In every city and on the journey between Dr. Black made it his business to secure pictures of interesting or historic subjects. He had unusual opportunity for securing a wide range of subjects because of the hospital survey he made, which made necessary visits to all parts of Greece and to the Greek islands.

The pictures are displayed on the walls in groups indicating the area or neighborhood in which they were taken. For instance, the groups on one wall are under the headings: Bassae, Dionysos, Phyle and Orchemenos. One picture shows the great amphitheatre at Argos, carved in the rock, and still another the famous theatre of Epidaurios. It is an interesting fact that near every ruin a museum is now maintained by the government. In days gone by it was possible for people from other nations to delve in the ruins and bring to light ancient wonders for their own museums, but that is now all past and the Greek government keeps control of the ruins.

The Stadium at Delphi
The Castilian Springs at Delphi and the stadium there are shown in other prints. Another group with personal interest for people who view the exhibit shows the mountainous region of northern Thessaly monasteries built in the fourteenth century at almost inaccessible heights are still maintained.

Dr. Black and members of his party were taken up the final distances leading to one of these monasteries by rope baskets transportation. One at a time, fastened securely in one of these baskets, they were hoisted to the rocks 200 feet above them, and there found footing leading to the monastery. The motive power for the rope baskets was furnished by a drum or windlass, operated by four monks.

The Corinth Excavations
One large group of pictures tells a great deal about ancient Corinth. This area has particular interest for Americans because excavations have been made there for 25 years by American scholars. One of the small pictures shows members of the Red Cross commission doing some digging in one of the graves on their own account, but evidently all of historic worth had previously been removed, for the "diggers" found nothing but bones.

It was at Corinth that under Red Cross direction the drain, constructed centuries ago but clogged with earth and stones, was opened. The purpose was to relieve the territory of the malaria which infected it.

One of the finest groups relating to ancient Athens shows five splendid views of the Acropolis. This group includes one large picture of the parthenon and another one showing the stadium of Athens as it has been renewed today.

Then there are pictures of modern Athens showing the library, the university and public and private residences. Other views of a modern day show scenes at the summer resorts on the Bay of Phaleron, four miles from Athens.

An Art Collection
The pictures referred to above are all in the big west room of the Art Home. In the main hallway in one cabinet there is a collection of pottery and other art goods, and in this same case are the decorations given Dr. Black by the king of Greece, making him a Knight of the Order of the Redeemer and a Knight of the Order of Military Merit.

The collection includes a tear vase taken from an ancient grave and said to have been made 500 years B. C. This vase was given to Dr. Black by Mrs. Scheldman, wife of the famous archaeologist. Another vase was from the excavations at Knossos and made centuries before Christ.

There is also a replica of a marble head secured at old Corinth. A seal, also taken from the excavations at Corinth, and a scarab, handsomely mounted, also are seen in this collection.

In the east room are the hundreds of pictures illustrating the Red Cross work in Macedonia and Bulgaria. In this group are 21

pictures taken by Major Hopkins and made a part of his report on Greek agriculture.

In the rear room on the east side are pictures relating especially to the hospitals of Greece. Together with the hundreds of stereopticon views arranged on a stand and with special lighting. Some of these stereopticon slides are reproductions of the pictures exhibited in the other rooms and all were taken for the purpose of telling the story of Red Cross commission work.

Stereopticon Slides
Before returning to the U. S. Dr. Black exhibited a number of these stereopticon slides to a group of residents of Athens, as it was their first opportunity of seeing the results of a survey of the hospitals in their country.

In another part of the home are many handsome samples of embroidery, needle and decorative work done by women of Greece, most of them in special rich colorings. A wax figure also gives a correct idea of the dress of a Grecian woman of today.

The pictures have both general and educational interest and will be especially valuable to young people who are studying history. The public is invited to inspect the pictures any afternoon or evening through Sunday, Nov. 6, Friday night at 7:30 o'clock the stereopticon views will be shown with a stereopticon in the room where they are located, and Dr. Black will give an accompanying explanation. The public is cordially invited to this feature of the exhibition.

FAIR ASSOCIATION TO MEET

The following notice has been sent to members of the Morgan County Fair association by H. J. Rucker, secretary.

At a special meeting of the Fair association called for November 15 at 7:30 p. m. in the Farm Bureau office, the following changes in the constitution will be submitted for your consideration:

(1) The name changed from the Morgan County Fair Association to the Morgan County Breeders' Fair. We had to use this name to secure our corporation papers.

(2) Annual meeting to be held between the 1st and 15th of November each year, instead of the 1st and 15th of January. Making this change gives the directors of the association more time to plan for next year's fair.

Should these changes be adopted the annual election of officers will take place at this meeting.

Why WEIR Casings Are Better

THE casings which surround WEIR cause of a natural suction at such openings. iron and are joined at three places by hoops of heavier steel.

On the ordinary furnace but one hoop is used and should the casing become the least bit loose, coal dust, gas, soot or smoke can and does enter the furnace jacket at these joints be-

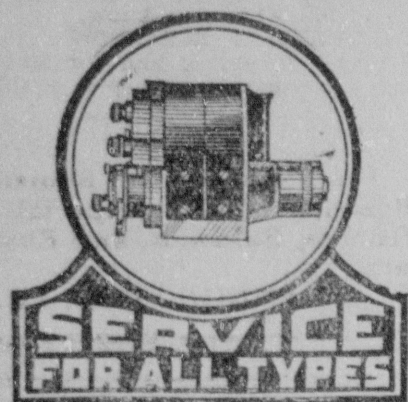

This cannot occur on a WEIR because of the double casing rings or hoops which lock these casing joints together. These rings are 2 1/2 inches wide and when properly drawn up they make a stronger and tighter casing than in other furnaces.

FORDNEY DEPLORES EFFORT BY SENATE TO PASS SALES TAX

He Had Planned to Bring it Up at Regular Session

WASHINGTON, Nov. 2.—Deplored the effort to put a sales tax thru the senate at this time, Chairman Fordney of the house ways and means committee disclosed today that it was his plan to bring in a sales tax in connection with the soldiers' bonus bill which he said would be reported during the coming regular session of congress.

"We want to reserve the sales tax for the bonus bill," Mr. Fordney said, "and we will pass that measure soon after congress reconvenes."

Earlier in the day, Mr. Fordney, Representative Green of Iowa, and Representative Longworth of Ohio, ranking Republican on the ways and means committee had informed senate leaders that under no condition would the house agree to a sales tax at this time.

He added that while he would not oppose a sales tax, he was not

The other compensation resolution adopted was offered by the resolutions committee. It asserted that the American Legion reiterates its position in favor of the adjusted compensation for discharged soldiers and deplors the request of President Harding to delay passage by congress of a measure for the same and the acquiescence of congress in that request.

Besides the section relating to Colonel Harvey, the only part of the resolution committee's report to meet with opposition from the floor was that relating to indorsement by the legion of the proposal that the chemical industry in this country be developed with a view to making chemical warfare a more important part of the nation's defenses. The resolution was laid on the table pending investigation of charges made on the floor that financial interests were seeking to influence the legion to indorse the proposal.

Later the matter broke out on the floor again when a motion was made to reconsider and charges of financial interest in the proposal were again made. The convention affirmed its previous action which referred the resolution to the national executive committee.

AN OPEN LETTER FROM STATE'S ATTORNEY ROBINSON

To the People of Morgan County: Notwithstanding opinions and statements of some persons to the contrary the State's Attorney of this County is trying to enforce the Illinois Prohibition Act. It is his duty to do so as far as he can with the means at his command.

From reports that come to the State's Attorney's Office from various sources one may fairly conclude that there are those who say

that they have much information about liquor violations in this County that the State's Attorney ought to have. These persons who "know" could do this community a real service if they would talk when and where it counts.

The Grand Jury of this County for the November term of the circuit Court will convene Monday, November 14, 1921. If persons who "know" about violations of the law in this County will leave their names in the State's Attorney's Office they will be called as witnesses and given an opportunity to tell what they know.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of saving a sorrow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no spark. Your doctor will tell you that 90 per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to soften the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 50c.

ILLINOIS PLAYS MONMOUTH FRIDAY

Game Will Be Played on Illinois Field Starting at 3 O'clock—Illinois Will Try to Make It Three Straight.

Friday at 3 p. m., on Illinois field the big red football team from Monmouth college will line up against the blue clad players of Illinois college. It was erroneously stated in yesterday's Journal that the game would be played on Saturday.

The Illinois team is determined to make the count read three straight victories. Two years ago the Blue players, led by a whirlwind attack on the part of Cully and Barnes, ran wild on Illinois field and smothered the Monmouth team 39 to 0. Last year Cully and Barnes, aided by wonderful line plunging by Rogers, again led the attack on the big red team, piling up 22 points. Barnes, of course, is missing this year from the Illinois team.

Those who saw him kick three successive field goals in the Monmouth game a year ago will not soon forget his performance. Even the Monmouth rooters were forced thru sheer admiration to applaud his remarkable performance.

This year Cully and Rogers are again on hand prepared to batter down the Monmouth defense and lead the Blue players to victory. Friday, at 3 p. m., the struggle will begin.

WINCHESTER

Mrs. A. J. Redshaw and Mrs. Harlan Redshaw have been called to Astoria by the serious illness of the little son of Mr. and Mrs. Joseph Callens. He was taken to St. Francis hospital in Galesburg where he was operated on for appendicitis Wednesday morning. Indications are that the child will get along in a satisfactory manner.

The Methodist church will serve a chicken pie supper Thursday evening commencing at 5:30 o'clock.

Pex Shaw and W. H. Kinison of Jacksonville were in Winchester on business Wednesday.

Mrs. Curtis Unger and John Ritter of Naples were business visitors in Winchester Wednesday.

In the circuit court Wednesday in the case of the city of Bluffs vs. William Mogler, the taking of evidence was concluded before Judge Smith Wednesday afternoon and the attorneys presented their argument to the jury. Judge Smith will give instructions when court convenes this morning. The case comes on appeal from a justice court in Bluffs.

VETERAN ENGINEER.

One of the local railroad pioneers is S. W. Ingals of this city. The gentleman began his railroad career in 1864 with the Chicago & Alton. For a while he worked for another road running between Cleveland and Toledo, but he soon returned to his first choice and for twenty-one years he pulled the accommodation train between this city and St. Louis.

Not waiting to break down or get killed, he retired a number of years ago and is living a quiet, pleasant life on the savings of his active years. He has a daughter, the wife of Coach Buland, now in Methuen, Virginia; a son in Oklahoma and a daughter in Chicago. Though well past three score and ten, he is yet hale and hearty and enjoys life all right.

LOST D. A. R. PIN

Mrs. Lillian I. Danskin had the misfortune to lose her D. A. R. pin while she was with one hundred or more ladies inspecting the Jacksonville State Hospital Tuesday afternoon. The pin was found by a patient who turned it over to a nurse and she in turn got it to Mrs. Danskin. Mrs. Danskin is very thankful to these people as the pin had more than sentimental value to her.

USE FOR SUGAR BEETS.

Robert Mutch of this city raises in his garden a fine specimen of sugar beets of the Golden Tanager variety. He says his chickens are fond of them and will pick away at a whole one thrown to them and the feed is good.

In groups he sows the best seed when ground and placed with the other ingredients. He had a sack of his beets at the Cassell clear store yesterday and it was very fine.

White Hall, Nov. 1.—A most notable gathering of pioneer women of this locality will be held Wednesday at the home of Mrs. William F. Short on Centennial street in honor of her aunt, Mrs. Sally M. Smith, of Greenfield, age 85 years, who has been a guest at the Short home for two weeks. The guests include Mrs. Elizabeth, age 84; Mrs. Delilah Duncan, 82, and Mrs. M. A. McCracken, 80, all in splendid health and spirits, and it will be an occasion of real merriment. Mrs. Short has provided an elegant repast with the assistance of Mrs. Frank Vandaveer. Other aged ladies in the immediate neighborhood are Mrs. Sally Griswold, 85, and Mrs. D. M. The couple celebrated their 61st wedding anniversary. They spent fifty years on a farm, and retain the ownership. Mrs. Smith spends the winter with her daughter, Mrs. M. E. How an EXPECTANT MOTHER Prepared for Baby's Coming

DO YOU know that thousands of women never really suffer at child-birth? Perhaps you have thought with many others that this should always be the case. But how?

Let Mrs. Mattie Paul, of Ocala, Fla., tell you. She is one of thousands who have demonstrated this fact:

"As I am a young mother of one baby, I am writing for free booklet to 'expectant mothers.' I used only two bottles of Mother's Friend before I was confined and had a quick and easy time through labor. I can recommend Mother's Friend to all expectant mothers. I will never go through pregnancy without it."

It goes into the features of maternity and gives, in a plain, interesting manner, information about what the mother needs in clothing before baby is born; what clothing will be necessary for the baby; an interesting table as to the probable date of delivery; simple but necessary and helpful rules of hygiene to follow, and much other worth-while information. This little booklet also tells about Mother's Friend and the wonderful good it is doing for expectant mothers.

Don't let false modesty keep you from performing this duty to yourself—your family—and your baby. Send for your copy NOW.

WARNING: Avoid using plain oils, greases and substitutes—they act only on the skin and may cause harm without doing good.

MUNDY HELD IN JAIL HERE

Edward Munday, who pleaded guilty of the brutal murder of little ten year old Beatrice Kincaid while on trial at Winchester recently, was held in the Morgan county jail for two nights before being taken to Chester, where he will serve a life sentence.

Munday was rushed to the jail here after entering a plea of guilty as it was feared that violence might result if he were left at Winchester.

The fact that Munday was in jail here was known to the newspapers but was not given publicity on account of the strong feeling against the prisoner.

MILLER WILL NOT SIGN BONDS UNTIL READY TO DELIVER

State Treasurer Carries \$2,500,000 Worth to Chicago

(By The Associated Press)

SPRINGFIELD, Ill., Nov. 2.—If State Treasurer Edward E. Miller is held up and robbed of \$2,500,000 worth of state road bonds before he reaches the Continental & Commercial Trust & Savings Bank in Chicago, tomorrow, the robbers will have only 2,500 scraps of paper.

Altho Governor Small, Secretary of State Emmerson and State Auditor Russell spent the day affixing their signatures to the bonds the state treasurer, whose signature is also required, announced before he left for Chicago tonight that he would wait until he delivers the bonds to place his signature upon them.

The bonds are half of the first issue of \$5,000,000 sold recently to a Chicago syndicate headed by the Continental & Commercial Trust & Savings company.

The state today cancelled the second million of its \$20,000,000 worth of waterway bonds, which were never sold. Under the bond issue act the bonds must be retired at the rate of \$1,000,000 annually.

KANSAS TOWN VOTES

FOR NEW SCHOOL BUILDING

At Baldwin, Kans., the people recently authorized the issuance of \$55,000 in bonds for the erection of a new school building. Many Jacksonville people will be interested in knowing that Prof. W. H. Garrett, was one of those most actively interested in the campaign for the new building. Mr. Garrett has for years been a member of the faculty of Baker university but is greatly interested in the school system of Baldwin. He prepared a pamphlet under the general theme, "Shall I vote for the bonds?" and presented reasons for the new building in a very concrete and convincing way.

It is not an easy thing to get people to vote in favor of bonds these days and evidently the Baldwin residents felt that the presentation of the case made by Mr. Garrett gave abundant proof of the need for the building. One of the interesting facts set forth was that recent months in Baldwin have shown the following declines in prices: Lumber, 40 per cent, brick 18 per cent, and cement 10 per cent. It was mentioned that with decreasing freight rates some other price reductions can be expected.

Another interesting fact cited was that the school levy in Baldwin the present year is \$8.89 per \$1,000 of valuation, the lowest in a group of 14 Kansas cities, the highest being at Coffeyville, with a rate of \$16.08.

A Christmas committee with Edna Wardhaugh as chairman was appointed as follows: Mrs. S. Foley, Lucy Coover, Mrs. Harrison King, Will Goebel. The music committee headed by Nellie Cunningham, was asked to take charge of the Thanksgiving program.

The Sunday school treasurer, A. G. Leedy, then made a report which showed the Sunday school finances to be in a healthy condition. Two boys, Lee Henry Goebel and Sheldon Nicol, were appointed delegates to attend the Illinois State Older Boys' Conference to be held in Decatur soon.

YEGGMEN BLOW CONCORD BANK

Wreck Vault But Fail to Get Any Booty—Residents Not Awakened by Explosion.

Yeggmens made a visit to the Concord bank early yesterday morning, the second in two years, but left empty handed after blowing a hole in the vault. For some reason they did not bother a small safe in one corner of the vault, which contained all of the bank's cash.

A large amount of damage was done to the bank building and it will be some time before repairs to the interior are completed. The robbers were experts in their line, as they blew a hole in the vault wall just large enough for one man to crawl through. They left numerous tools lying about, but none of them had been bought in Concord.

The residents of Concord were not awakened by the explosion, the first intimation of it being when the cashier noticed the blinds drawn when he went to work in the morning as usual. Sheriff W. H. Weatherford and Deputies Rook and Andrews noticed automobile tracks near the bank of a large car with a different make of tire on each wheel. According to their investigation the machine went east out of Concord, but they discovered no real clues.

Two years ago cracksmen visited Concord and were met with a warm reception. Several daring citizens were on guard and shots were exchanged but no one was injured. This time the thieves were free from interference.

Why Should You Follow A Crooked Path?

Often a cowpath has been allowed to become a village street, and as the village expanded, tradition has made the winding way an expression of a cow's will.

Habit is always forging chains to enslave us, so that what has been found bearable by the fathers is accepted by the sons.

Who cannot recall the coffee-pot Mother put on the stove early in the morning, warning us not to let it boil over?

As children, we were not permitted to drink tea or coffee, because it would stunt our growth or make us nervous and irritable. When older, however, we craved a hot drink with meals, and custom gave us our tea or coffee.

Finally, upon the instructions of the doctor, Mother gave up her tea and coffee. But that meant nothing in our young lives. Our vitality was then strong enough to throw off any ill effects.

But our time came, and we learned by experience that we could not drink tea or coffee. When we had it for breakfast it put our nerves on edge. When we drank it at the evening meal, we tossed about in wakefulness most of the night.

And then we found Postum, a pure cereal beverage, free from the harmful drug, caffeine, in tea and coffee. We liked the rich, satisfying flavor of Postum—and also the better health which resulted. And, too, we were surprised to find how many of our neighbors had made the same discovery—had learned the value of "health first."

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 27 minutes. Sold by all grocers.

Postum for Health—"There's a Reason"
